Deciphering the interplay between peripheral and central cytokine- and kynurenine pathways: importance for the pathophysiology of schizophrenia

Author: Orhan, Funda

Date: 2018-04-20

Location: Lecture hall Pharmacology, Nanna Svartz väg 2, 171 77, Karolinska Institutet, Stockholm

Time: 09.00

Department: Inst för fysiologi och farmakologi / Dept of Physiology and Pharmacology

- **Page 9, Row 26, Change TDO to KMO**
- **Page 30, Row 14, excitation 344 and emission 495**
- **Page 31, Row 6, Change -350 mV to 350 mV**
- **Page 39, Table 1, Change "n=21" to n=22 (healthy controls)**
- **Page 54, Dopamine levels should be in nM and not uM**
